ITISHREE AGARWAL

Itishreeagarwal2000@gmail.com | +91 7249933135

EDUCATION

Narsee Monjee Institute of Management Studies, Mumbai **2025-27**
MBA, Business Analytics

TECHNICAL SKILLS

● **Databases:** SQL, MongoDB, Relational Database Design, Schema Modeling,
● **Programming**: Python (Pandas, NumPy, Scikit-learn,re), spaCy,TextBlob,Gensim, statsmodels, scikit-learn(train_test_split, LinearRegression, Ridge, Lasso, ElasticNet, LogisticRegression, PyPDF2
● **Data Engineering:** ETL Concepts, Data Cleaning, Data Validation, Data Integration
● **Data Visualization:** Tableau, Power BI, Matplotlib, Seaborn
● **Data Tools**: Excel (Power Query, Pivot Tables)

WORK EXPERIENCE

Process Delivery Specialist, IBM **Aug 2021 – Oct 2023**
●Managed **AP** operation across 2 countries processing 1500+ invoices monthly using **Read soft, workflow** with accuracy adherence to **SLAs**
●Automated **reporting & dashboard** workflows, reducing report preparation time **by 30%** and supporting decision-making for **5+ client teams**
●Collaborate with team by **resolving 98% of escalation** within TAT & **maintain 4.9/5client satisfaction** score through **SLA and KPI framework**
●**Coordinated with local finance** to manage daily change requests, **client communications**, and month-end closing activities

Associate -Buy, Rio Tinto **Oct 2023 – May 2024**
●Managed **end-to-end procurement cycle** including **RFQ creation**, supplier selection, negotiations, and purchase order execution using SAP
●Reviewed and processed **PR monthly** with accuracy, converting them into PO in line with organizational procurement policies
●Resolved supplier invoice and shipping issues within specified timelines, **ensuring on-time delivery** and strong supplier relationships

CORPORATE PROJECTS & INTERNSHIPS

Customer Insights Analysis
●Developed the **SQL queries (joins, aggregates, window functions)** to extract insights on customer demographics, revenue, and order trends
●Analysed **customer segmentation** and purchase behaviour by age, product and category, enabling data-driven targeting strategies.
●Generated revenue and sales **performance reports** that identified top-performing countries and high-value product categories for marketing.

Amazon Shipping Analytics
●Extracted, **interpreted and analysed data** to identify key metrics and transform raw data into meaningful, actionable information.
●Extensive used visualizations in **Tableau** like **Dual Axis, Box Plots, Tree maps, Water Fall charts** to assist in solving complex problems.
●It helps to switch and view different shipping stats for different months and years.
●It explores how many orders are outstanding a day and where they should be shipped.

Credit Card Fraud Detection
●Developed Built and fine-tuned a **logistic regression model** achieving 87% fraud detection accuracy.
●Designed interactive visualizations using **Matplotlib and Seaborn** to illustrate performance metrics for clear presentation of analytical insights
●Reduced false positives by 16% using feature engineering and ensemble techniques.
●Designed **visual analytics in Python** to present fraud risk metrics for stakeholders.

ACADEMIC PROJECTS

Data Management (SQL)

●Architect **10+ table relational schema** to manage user, post, page & engagement data for scalable social media analytics

●Engineered **MongoDB** CRUD & find operations to extract insights, including **identifying top 5 platform** "power users"·

Programming for Analytics (Python)

●Analysed 228-countries dataset to assess 2024–25 US tariff impacts using GDP, trade, and FDI data, producing macro-risk exposure metrics

●Ranked top 10 nations by US export dependency (max 100%) and quantified absolute export loss (up to $150B) under policy scenario.

Statistical Inference and Decision

●Analysed 30 years of Canadian SDI data via OLS, linking GDP, CO_2, and CRE to sustainability performance ($R^2 \approx 0.75$)

●Correlated GDP elasticity ≈ 0.174, revealing 10% GDP rise links to ~1.7% SDI lift, emphasizing secondary growth role

ACHIEVEMENTS, CERTIFICATES & SKILLS

Programming in Python (Meta)

●Mastered fundamental Python syntax, proficiently utilizing control flow, loops, functions, and data structures.

●Acquired expertise in procedural programming paradigms and associated logical concepts, enhancing capabilities

Data Analyst 360 (IBM)

●Learned the concepts of Excel & SQL key ecosystem elements, including the ETL process and data basics.

●Developed a comprehensive foundation in data collection, cleaning, and pre-processing techniques.

Certificate: Secured **1st place** out of 567 students at Branding Secret conducted by **IIM Rohtak.**

Hobbies/Interests: Mandala Art, Dancing
